

Virtual Development Center

Evaluate readiness and accelerate development using our customizable tool

A quickly deployable, time and cost-effective online platform that helps to objectively measure leadership and future-ready skills in a virtual, yet highly realistic, environment.

KEY FEATURES OF VIRTUAL DEVELOPMENT CENTERS

Conduct hybrid exercises for a large number of people simultaneously, without hampering engagement quality

Experience a simulated environment at a fraction of the cost and logistical hassles required for physical development centers

Facilitate standardization of various assessments, easy benchmarking, and culling of results

Generate individual reports with personalized pen-pictures to aid decision making and development priorities

TOOL CHOICES
